Name(s)_____ Period _____ Date _____

Recommending a Meal

You and your group will be recommending meals for several people based on a set of data. Each person will tell you something to help you decide which meal is the best. You'll need to work with your group to recommend a meal, then explain your choice based on the data that you have been given. Your data is on a separate page.

"I am allergic to eggs." What meal does your group recommend? _____ Explain your choice using your data. _____ _____ _____	**"My doctor said to eat less sodium."** What meal does your group recommend? _____ Explain your choice using your data. _____ _____ _____
